

Highlights on Open Calls

September 2021, Issue 18

For easy identification, new calls compared to the previous issue are marked with the symbol  on the left.
Updated information about calls compared to the previous issue are marked with the symbol  on the left.

Horizon Europe

ERC STARTING GRANTS **Forthcoming**

Topic: Applications may be made in any field of research
Call identifier: ERC-2022-StG

ERC Starting Grants are designed to support excellent Principal Investigators at the career stage at which they are starting their own independent research team or programme. Applicant Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal. The Principal Investigator shall have been awarded their first PhD at least 2 and up to 7 years. A competitive Starting Grant Principal Investigator must have already shown the potential for research independence and evidence of maturity, for example by having produced at least one important publication as main author or without the participation of their PhD supervisor. Applicant Principal Investigators should also be able to demonstrate a promising track record of early achievements appropriate to their research field and career stage, including significant publications (as main author) in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals of their respective field. They may also demonstrate a record of invited presentations in well-established international conferences, granted patents, awards, prizes, etc.

Horizon Europe – European
Research Council

Types of action: ERC-STG Starting
Grant

Opening date: 23 September 2021

Deadline: 13 January 2022

ERC CONSOLIDATOR GRANTS **Forthcoming**

Topic: Applications may be made in any field of research
Call identifier: ERC-2022-COG

ERC Consolidator Grants are designed to support excellent Principal Investigators at the career stage at which they may still be consolidating their own independent research team or programme. The Principal Investigator shall have been awarded their first PhD over 7 and up to 12 years. A competitive Consolidator Grant Principal Investigator must have already shown research independence and evidence of maturity, for example by having produced several important publications as main author or without the participation of their PhD supervisor. Applicant Principal Investigators should also be able to demonstrate a promising track record of early achievements appropriate to their research field and career stage, including significant publications (as main author) in major international peer-reviewed multidisciplinary scientific journals, or in the leading international peer-reviewed journals of their respective field. They may also demonstrate a record of invited presentations in well-established international conferences, granted patents, awards, prizes etc. Consolidator Grants may be awarded up to a maximum of EUR 2 000 000 for a period of 5 years.

Horizon Europe – European
Research Council

Types of action: ERC-COG
Consolidator Grant

Opening date: 19 October 2021

Deadline: 17 March 2022

ERC ADVANCED GRANTS **Forthcoming**

Topic: Applications may be made in any field of research
Call identifier: ERC-2022-AdG

Advanced Grants are designed to support excellent Principal Investigators at the career stage at which they are already established research leaders with a recognised track record of research achievements. Applicant Principal Investigators must demonstrate the groundbreaking nature, ambition and feasibility of their scientific proposal. A competitive Advanced Grant Principal Investigator must have already shown a record which identifies them as an exceptional leader in terms of originality and significance of their research contributions. Thus, in most fields, Principal Investigators of Advanced Grant proposals will be expected to demonstrate a record of achievements appropriate to the field and at least matching one or more of the following benchmarks: 10 publications as main author (or in those fields where alphabetic order of authorship is the norm, joint author) in major international peer-reviewed multidisciplinary scientific journals, and/or in the leading international peer-reviewed journals and peer-reviewed conferences proceedings of their respective field; 3 major research monographs. This benchmark is relevant to research fields where publication of monographs is the norm. Other alternative benchmarks that may be considered (individually or in combination) as indicative of an exceptional record and recognition in the last 10 years: 5 granted patents; 10 invited presentations in well established internationally organised conferences and advanced schools; 3 research expeditions led by the applicant Principal Investigator; 3 well-established international conferences or congresses where the applicant was involved in their organisation as a member of the steering and/or organising committee; International recognition through scientific or artistic prizes/awards or membership in well-regarded Academies or artefact with documented use (for example, architectural or engineering design, methods or tools); Major contributions to launching the careers of outstanding researchers; Recognised leadership in industrial innovation.

Horizon Europe – European Research Council

Types of action: ERC-ADG
Advanced Grant

Opening date: 20 January 2022

Deadline: 28 April 2022

ERC SYNERGY GRANT **Open for submission**

Topic: any field of research
Call identifier: ERC-2022-SyG

ERC Synergy Grants are intended to foster research at the intellectual frontiers by enabling a small group of two to four Principal Investigators, referred to as a 'Synergy Grant Group', and their teams, to bring together complementary skills, knowledge, and resources in new ways to jointly address ambitious research problems. The aim is to promote substantial advances at the frontiers of knowledge, to cross-fertilize scientific fields, and to encourage new productive lines of enquiry and new methods and techniques, including unconventional approaches and investigations at the interface between established disciplines. This should enable transformative research not only at the forefront of European science but also to become a benchmark on a global scale. Applicants Principal Investigators must demonstrate the synergies, complementarities and added value that could lead to breakthroughs that would not be possible by the individual Principal Investigators working alone. The Synergy Grant Group must be made up of a minimum of two and a maximum of four Principal Investigators.

Types of action: ERC-SyG
Synergy grant

Opening date: 15 July 2021

Deadline: 10 November 2021

EIC PATHFINDER CHALLENGES 2021 **Open for submission**

Topic: Novel routes to green hydrogen production
Call identifier: HORIZON-EIC-2021-PATHFINDERCHALLENGES-01-04

In order to apply, your proposal should develop a proof of concept or lab-scale validated innovative green H₂ production technology by biological, chemical or physical routes without the deployment of fossil fuels, potentially including the use of salt or waste water, air moisture, biomass or recycled by-products, or the co-production of decarbonised chemicals.

Projects with multidisciplinary and cross sectorial approaches, looking for inspiration, ideas and knowledge in disciplines that are typically not in this kind of research, are particularly welcome. Projects are strongly encouraged to consider the recovery and recycling of by-products and wastes (circular approach), as well as the use of abundant natural resources. The safe and sustainable use of non-critical raw materials is mandatory and the projects should include a full life cycle analysis of the proposed solutions and their impact on Europe's decarbonisation goals.

Types of action: EIC Grants

Opening date: 15 June 2021

Deadline: 27 October 2021
17:00:00

➔ EIC PATHFINDER CHALLENGES 2021 **Open for submission**

Topic: Engineered Living Materials
Call identifier: HORIZON-EIC-2021-PATHFINDERCHALLENGES-01-05

In order to apply, your proposal must plan to validate the technologies by producing at least two different living materials (i.e. with different applications, scale - 10 x difference- and cellular composition). These must not be a derivative of each other. The material needs to be formed by living cells as per the definition of ELMs in the introduction of this call. Alternatively, if a synthetic cell is used, the synthetic cell must have, prior to the start of the project, a demonstrated ability (via a peer-reviewed scientific publication) of cellular reproduction via cell division and adaptation to environmental clues.

Horizon Europe – European Innovation Council

Types of action: EIC Grants
Opening date: 15 June 2021
Deadline: 27 October 2021 17:00:00

➔ MSCA AND CITIZENS 2022 (HORIZON-MSCA-2022-CITIZENS-01) **Open for submission**

Topic: European Researchers' Night 2022-2023
Call identifier: HORIZON-MSCA-2022-CITIZENS-01-01

MSCA and Citizens aims to bring research and researchers closer to the public at large, to increase awareness of research and innovation activities and to boost public recognition of science and research education. It will show the role of the researcher for the society and economy, as well as the impact of researchers' work on citizens' daily lives. It also aims to raise the interest of young people in research and scientific careers. MSCA and Citizens will address the general public, attracting people regardless of the level of their scientific background, with a specific focus on families, pupils, students, and notably those who do not have easy access to, and thus are less inclined to engage in, STEAM fields (science, technology, engineering, arts and mathematics) or research activities. Inclusiveness should be key, in view of broadening access to science and research to all. MSCA and Citizens should also promote gender balance and inclusiveness in science, Open Science, and Responsible Research and Innovation. These objectives will be pursued through the organisation of the European Researchers' Night, the largest research communication and promotion event taking place across EU Member States and Horizon Europe Associated Countries. The European Researchers' Night will include the Researchers at Schools initiative which aims to strengthen the connection between research and education, by bringing researchers to schools to encourage interaction with pupils at all levels of primary and secondary education. Researchers and school pupils will meet to talk about current and future challenges of our societies and the related key role of research. Pupils will learn directly about research projects and activities addressing the EU priorities and main orientations.

Horizon Europe – Marie Skłodowska-Curie Actions (MSCA)

Types of action: HORIZON Coordination and Support Actions

Opening date: 22 June 2021
Deadline: 07 October 2021 17:00:00

➔ MSCA DOCTORAL NETWORKS 2021 (HORIZON-MSCA-2021-DN-01) **Open for submission**

Topic: MSCA Doctoral Networks 2021
Call identifier: HORIZON-MSCA-2021-DN-01-01

MSCA Doctoral Networks will implement doctoral programmes, by partnerships of universities, research institutions and research infrastructures, businesses including SMEs, and other socio-economic actors from different countries across Europe and beyond. The MSCA Doctoral Networks will raise the attractiveness and excellence of doctoral training in Europe. They will equip researchers with the right combination of research-related and transferable competences and provide them with enhanced career perspectives in both the academic and non-academic sectors through international, interdisciplinary and inter-sectoral mobility combined with an innovation-oriented mind-set. MSCA Doctoral Networks are encouraged to lead to Industrial or Joint Doctorates.

➔ MSCA POSTDOCTORAL FELLOWSHIPS 2021 (HORIZON-MSCA-2021-PF-01) **Open for submission**

Topic: MSCA Postdoctoral Fellowships 2021
Call identifier: HORIZON-MSCA-2021-PF-01-01

The goal of MSCA Postdoctoral Fellowships is to enhance the creative and innovative potential of researchers holding a PhD and who wish to acquire new skills through advanced training, international, interdisciplinary and inter-sectoral mobility. MSCA Postdoctoral Fellowships will be open to excellent researchers of any nationality. The scheme also encourages researchers to work on research and innovation projects in the non-academic sector and is open to researchers wishing to reintegrate in Europe, to those who are displaced by conflict, as well as to researchers with high potential who are seeking to restart their careers in research. Through the implementation of an original and personalised research project, MSCA Postdoctoral Fellowships aim to foster excellence through training and mobility and to equip researchers with new skills and competences in order to identify solutions to current and future challenges. Postdoctoral researchers are encouraged to reach out to society at large to make the results of their research visible to citizens.

➔ MSCA STAFF EXCHANGES 2021 (HORIZON-MSCA-2021-SE-01) **Forthcoming**

Topic: MSCA Staff Exchanges 2021
Call identifier: HORIZON-MSCA-2021-SE-01-01

MSCA Staff Exchanges promote innovative international, inter-sectoral and interdisciplinary collaboration in research and innovation through exchanging staff and sharing knowledge and ideas at all stages of the innovation chain. The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps turn ideas into innovative products, services or processes. It is open to research, technical, administrative and managerial staff supporting R&I activities.

➔ MSCA COFUND 2021 (HORIZON-MSCA-2021-COFUND-01) **Forthcoming**

Topic: MSCA COFUND 2021
Call identifier: HORIZON-MSCA-2021-COFUND-01-01

Applicants submit proposals for new or existing doctoral or postdoctoral programmes with an impact on the enhancement of human resources in R&I at regional, national or international level. These programmes will be co-funded by MSCA COFUND. Proposed programmes can cover any research disciplines ("bottom-up"), but exceptionally can also focus on specific disciplines, notably when they are based on national or regional Research and Innovation Strategies for Smart Specialisation (RIS3 strategies). In this case, the range of covered disciplines should allow reasonable flexibility for the researchers to define their topic.

Horizon Europe – Climate, Energy and Mobility

Types of action: Research and Innovation Actions; Innovation Actions

Opening date: 02 September 2021

Deadline: 23 February 2022 17:00:00

R&I activities will underpin the modernisation of the energy networks to support energy system integration, including the progressive electrification of demand side sectors (buildings, mobility, industry) and integration of other climate neutral, renewable energy carriers, such as clean hydrogen. Innovative energy storage solutions (including chemical, mechanical, electrical and thermal storage) are a key element of such energy system and R&I actions will advance their technological readiness for industrial-scale and domestic applications.

➔ CLEAN ENVIRONMENT AND ZERO POLLUTION **Open for submission**

Topics:

- Optimisation of nutrient budget in agriculture TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-02
- Environmental sustainability criteria for biological resources production and trade in bio-based systems: impacts and trade-offs TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-05
- International and EU sustainability certification schemes for bio-based systems TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-07
- Regional nitrogen and phosphorus load reduction approach within safe ecological boundaries TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-01
- Preventing and managing diffuse pollution in urban water runoff TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-03
- Achieving zero polluted seas and ocean TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-04
- Increasing the environmental performance of industrial processes in bio-based sectors: construction, woodworking, textiles, pulp and paper and bio-chemicals TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-06
- Environmental services: improved bioremediation and revitalization strategies for soil, sediments and water TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-10
- Environmental impacts and trade-offs of alternative fertilising products at global/local scale. TOPIC ID: HORIZON-CL6-2021-ZEROPOLLUTION-01-09

Call identifier: HORIZON-CL6-2021-ZEROPOLLUTION-01

Proposals for topics under this destination should set out a credible pathway to contribute to the aforementioned goal to achieve a clean environment and zero pollution, and more specifically to one or several of the following impacts:

- Advanced understanding of diffuse and point sources of water pollution in a global and climate change context, enabling novel solutions to protect water bodies, aquatic ecosystems and soil functionality, and further enhancing water quality and its management for safe human and ecological use, while fostering the EU's and Associated Countries' position and role in the global water scene.
- Balanced N/P flows well within safe ecological boundaries at EU and Associated Countries, regional and local scale, contribute to restoring ecosystems.
- Clean, unpolluted seas in the EU and Associated Countries as a result of successful behavioural, social-economic, demographic, governance and green-blue transitions.
- Circular bio-based systems reversing climate change, restoring biodiversity and protecting air, water and soil quality along supply chain of biological feedstock and industrial value chains, within the EU and Associated Countries and across borders.
- Innovative biotechnology creating zero-pollution bio-based solutions.

Call identifier: HORIZON-CL6-2021-ZEROPOLLUTION-01

Proposals for topics under this destination should set out a credible pathway to contribute to the aforementioned goal to achieve a clean environment and zero pollution, and more specifically to one or several of the following impacts:

- Advanced understanding of diffuse and point sources of water pollution in a global and climate change context, enabling novel solutions to protect water bodies, aquatic ecosystems and soil functionality, and further enhancing water quality and its management for safe human and ecological use, while fostering the EU's and Associated Countries' position and role in the global water scene.
- Balanced N/P flows well within safe ecological boundaries at EU and Associated Countries, regional and local scale, contribute to restoring ecosystems.
- Clean, unpolluted seas in the EU and Associated Countries as a result of successful behavioural, social-economic, demographic, governance and green-blue transitions.
- Circular bio-based systems reversing climate change, restoring biodiversity and protecting air, water and soil quality along supply chain of biological feedstock and industrial value chains, within the EU and Associated Countries and across borders.
- Innovative biotechnology creating zero-pollution bio-based solutions.

Horizon Europe – Food, Bioeconomy Natural Resources, Agriculture and Environment

Types of action: Research and Innovation Actions; Innovation Actions;

Opening date: 28 October 2021

Deadline: 15 February 2022 17:00:00

➔ CIRCULAR ECONOMY AND BIOECONOMY SECTORS **Open for submission**

Topics:

- Novel, non-plant biomass feedstocks for industrial applications TOPIC ID: HORIZON-CL6-2021-CIRCBIO-01-05
- Contained biomass solutions for sustainable and zero-Indirect Land Use Change (ILUC) production systems for high value applications TOPIC ID: HORIZON-CL6-2021-CIRCBIO-01-06
- Microbiomes for bio-based innovation and environmental applications TOPIC ID: HORIZON-CL6-2021-CIRCBIO-01-07
- Innovative solutions to over-packaging and single-use plastics, and related microplastic pollution TOPIC ID: HORIZON-CL6-2021-CIRCBIO-01-03
- Increasing the circularity in textiles, plastics and/or electronics value chains TOPIC ID: HORIZON-CL6-2021-CIRCBIO-01-04

Call identifier: HORIZON-CL6-2021-CIRCBIO-01

Proposals for topics under this destination should set out a credible pathway to developing circular economy and bioeconomy sectors, achieving sustainable and circular management and use of natural resources, as well as prevention and removal of pollution, unlocking the full potential and benefits of the circular economy and the bioeconomy, ensuring competitiveness and guaranteeing healthy soil, air, fresh and marine water for all, through better understanding of planetary boundaries and wide deployment and market uptake of innovative technologies and other solutions, notably in primary production (forestry) and bio-based systems.

Horizon Europe – Food, Bioeconomy Natural Resources, Agriculture and Environment

Types of action: HORIZON Innovation Actions

Opening date: 22 June 2021

Deadline: 06 October 2021 17:00:00

➔ CIRCULAR ECONOMY AND BIOECONOMY SECTORS **Forthcoming**

Topics:

- EU-China international cooperation on unlocking the potential of agricultural residues and wastes for circular and sustainable bio-based solutions TOPIC ID: HORIZON-CL6-2022-CIRCBIO-01-05
- Marine microbiome for a healthy ocean and a sustainable blue bioeconomy TOPIC ID: HORIZON-CL6-2022-CIRCBIO-01-07
- Marginal lands and climate-resilient and biodiversity-friendly crops for sustainable industrial feedstocks and related value chains TOPIC ID: HORIZON-CL6-2022-CIRCBIO-01-02
- Maximising economic, environmental and social synergies in the provision of feedstock for bio-based sectors through diversification and increased sustainability of agricultural production systems TOPIC ID: HORIZON-CL6-2022-CIRCBIO-01-04
- Strengthening the European forest-based research and innovation ecosystem TOPIC ID: HORIZON-CL6-2022-CIRCBIO-01-06

Call identifier: HORIZON-CL6-2021-CIRCBIO-01

Proposals for topics under this destination should set out a credible pathway to developing circular economy and bioeconomy sectors, achieving sustainable and circular management and use of natural resources, as well as prevention and removal of pollution, unlocking the full potential and benefits of the circular economy and the bioeconomy, ensuring competitiveness and guaranteeing healthy soil, air, fresh and marine water for all, through better understanding of planetary boundaries and wide deployment and market uptake of innovative technologies and other solutions, notably in primary production (forestry) and bio-based systems.

Horizon Europe – Food, Bioeconomy Natural Resources, Agriculture and Environment

Types of action: HORIZON Research and Innovation Actions; Innovation Actions

Opening date: 28 October 2021

Deadline:

- 15 February 2022 17:00:00 (First stage)
- 01 September 2022 17:00:00 (Second stage)

➔ LAND, OCEAN AND WATER FOR CLIMATE ACTION **Open for submission**

Topics:

- Improved understanding, observation and monitoring of water resources availability. TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-01
- European Partnership Water Security for the Planet (Water4All) TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-02
- Key oceanic and polar processes driving regional & global climate change TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-03
- Agroecological approaches for climate change mitigation, resilient agricultural production and enhanced biodiversity TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-05
- Demonstration network on climate-smart farming – linking pilot farms TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-04
- Resilient livestock farming systems under climate change TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-06
- International Research Consortium on (agricultural) soil carbon TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-07
- Agroforestry to meet climate, biodiversity and farming sustainability goals TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-08
- Enhancing science-based knowledge on EU forests', including old-growth forests, capacities to mitigate climate change TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-09
- EU-China international cooperation on increasing the resilience of forests TOPIC ID: HORIZON-CL6-2021-CLIMATE-01-10

Call identifier: HORIZON-CL6-2021-CLIMATE-01

Proposals for topics under this destination should set out a credible pathway to contributing to climate action on land, oceans and water and more specifically to one or several of the following impacts:

- Better understanding and enhancing the mitigation potential of ecosystems and sectors based on the sustainable management of natural resources;
- Advanced understanding and science to support adaptation and resilience of natural and managed ecosystems, water and soil systems and economic sectors in the context of the changing climate;
- Efficient monitoring, assessment and projections related to climate change impacts, mitigation and adaptation potential in order to bring out solutions for tackling emerging threats and support decision-making in climate change mitigation and adaptation policies at European and global levels;
- Fostered climate change mitigation in the primary sector, including by the reduction of GHG emissions, maintenance of natural carbon sinks and enhancement of sequestration and storage of carbon in ecosystems;
- Improved adaptive capacity of water and soil systems and sectors including by unlocking the potential of nature-based solutions;
- Better managed scarce resources, in particular soils and water, thus mitigating climate related risks, in particular desertification and erosion, thanks to informed decision-makers and stakeholders and integration of adaptation measures in relevant EU policies.

➔ SUPPORTING THE PROTECTION OF BIODIVERSITY AND ECOSYSTEMS ACROSS LAND AND SEA ERA-NET **Forthcoming** *Member States - Joint Call for Proposals*

Topics: All environments (i.e. terrestrial, freshwater and marine)
Call identifier: BIODIVERSA

This call will cover the following three non-exclusive themes:

- Knowledge for identifying priority conservation areas, establishing effective and resilient ecological networks, enhancing species-based protection, and preserving genetic diversity
- Multiple benefits and costs of biodiversity and ecosystem protection: synergies and trade-offs
- Effective management and equitable governance to deliver bold conservation outcome.

SAVE THE DATE: an information webinar for potential applicants will be organised on **12 October** from 11:00 to 12:30 CEST. More information on the webinar here:

<https://www.biodiversa.org/1922>

Types of action: transnational projects

Opening date: 01 October 2021

Deadline: pre-proposals at the end of November 2021

Environment - European Commission

➔ LIFE PROGRAMME CALL FOR PROPOSALS

Topics: Circular economy and quality of life

Call identifier:

- LIFE-2021-SAP-ENV Circular Economy and Quality of Life - Standard Action Projects (SAP)
- LIFE-2021-SAP-ENV-GOV Environment governance – Standard Action Projects (SAP)
- LIFE-2021-STRAT-ENV-SIP-two-stage Strategic Integrated Projects - Environment (SIP)

The Circular economy and quality of life sub-programme aims at facilitating the transition toward a sustainable, circular, toxic-free, energy-efficient and climate-resilient economy and at protecting, restoring and improving the quality of the environment, either through direct interventions or by supporting the integration of those objectives in other policies. Thus, LIFE will continue to co-finance projects in the environmental sector, in particular in the area of the circular economy, including recovery of resources from waste, water, air, noise, soil and chemical management as well as environmental governance. The sub-programme provides mostly action grants for projects implementing innovative and best practice solutions in these areas through the so-called Standard Action Projects (SAP). It also covers the implementation, monitoring and evaluation of EU environmental policy and law through the so-called Strategic Integrated Projects (SIPs).

LIFE Programme - European Programme for the Environment and Climate Action

Types of action: Standard Action Projects (SAP); Strategic Integrated Projects (SIP);

Opening date: 13 July 2021

Deadline:

- LIFE-2021-SAP-ENV and LIFE-2021-SAP-ENV-GOV: 30 November 2021 17:00:00
- LIFE-2021-STRAT-ENV-SIP: 19 October 2021 17:00:00 and 07 April 2022 17:00:00

Read more on:

<https://ec.europa.eu/easme/en/section/life/calls-proposals>

➔ LIFE PROGRAMME CALL FOR PROPOSALS

Topics: Climate Change Mitigation and Adaptation

Call identifier:

- LIFE-2021-SAP-CLIMA-CCA - Climate Change Adaptation – Standard Action Projects (SAP)
- LIFE-2021-SAP-CLIMA-CCM - Climate Change Mitigation – Standard Action Projects (SAP)
- LIFE-2021-SAP-CLIMA-GOV Climate Governance and Information – Standard Action Projects (SAP)
- LIFE-2021-STRAT-two-stage Climate Change - Strategic Integrated Projects (SIP)

The Climate Change Mitigation and Adaptation sub-programme will contribute to the shift towards a sustainable, energy-efficient, renewable energy-based, climate-neutral and resilient economy, thereby contributing to sustainable development.

Climate change mitigation supports projects in the areas of farming, land use, peatland management, renewable energies and energy efficiency. It provides support for pilot, demonstration and best practice projects that contribute to the reduction of greenhouse gas emissions, the implementation and development of EU policy and legislation, best practices and solutions.

Climate change adaptation co-finances projects in the areas of urban adaptation and land-use planning, resilience of infrastructure, sustainable management of water in drought-prone areas, flood and coastal management, resilience of the agricultural, forestry and tourism sectors, and/or support to the EU's outermost regions.

LIFE Programme - European Programme for the Environment and Climate Action

Types of action: Standard Action Projects (SAP); Strategic Integrated Projects (SIP)

Opening date: 13 July 2021

Deadline:

- LIFE-2021-SAP-CLIMA-CCA; LIFE-2021-SAP-CLIMA-CCM; LIFE-2021-SAP-CLIMA-GOV: 30 November 2021 17:00:00
- LIFE-2021-STRAT: 19 October 2021 17:00:00 and 07 April 2022 17:00:00

European Cooperation in the field of Scientific and Technical Research

➔ COST OPEN CALL FOR PROPOSALS **Open for submission**

Topics: all scientific disciplines

COST (European Cooperation in Science and Technology) is a pan-European intergovernmental framework dedicated to networking activities for European researchers to jointly develop their own ideas and new initiatives across all scientific disciplines through trans-European coordination of nationally funded research activities. COST has been contributing to closing the gap between science, policy makers and society throughout Europe and beyond since its creation in 1971.

COST (European Cooperation in Science and Technology)

Types of action: trans-European cooperation

Deadline: 29 October 2021

➔ ENI AWARDS 2022 **Open for submission**

Again for 2022, there are three main prizes Eni Awards for Energy Frontiers, Advanced Environmental Solutions and Energy Transition, and awards for the Young Researcher of the Year, Research Debut - Young Talents from Africa and the Recognition of Innovation at Eni for our researchers. Each of these categories has its own Official Announcement. The general rules for the competition are outlined in the Regulations.
